June 13, 2025

Dear Mr. Arun Verma,

Warm greetings from Panjab University, Chandigarh!

I am truly heartened by the remarkable energy, commitment, and purpose demonstrated by our alumni at the DCET North America Alumni Leadership Meeting held in Houston. The vision of rekindling the legacy of excellence at DCET through global collaboration, especially with a reputed institution like the University of Houston, is both commendable and inspiring.

The "March to the Top" initiative, catalyzed by your generous contribution and the collective efforts of alumni can become a powerful force for institutional transformation. The meeting's outcomes—ranging from strategic partnerships to cultural and academic rejuvenation—resonate deeply with the broader aspirations of Panjab University. I am happy to know that the Panjab University team held productive meetings with the University of Houston's Department of Chemical Engineering to explore dual degree programs and research collaborations.

In nutshell, your leadership and that of fellow alumni reaffirm our belief that transformational change is achievable when driven by a shared mission. I wholeheartedly encourage you and the entire alumni network to continue this spirited momentum. Panjab University stands ready to support this journey with openness and commitment.

With warm regards and best wishes,

(Renu Vig)
